GRAVEL

TRAIL

COMFORT

FRAME KIT / COMPLETE BIKE

Ride fast on any surface: asphalt, white roads and rough terrain, thanks to the possibility of assembling 700c and 650b wheels with tires up to 2,1". The carbon monocoque construction and its racing geometry make King Zydeco light, performing and extremely fast. Perfectly suitable for long distance gravel races and also ready for bike packing explorations.

COLOR: Jambalaya

The image has the sole purpose of presenting the product. Some assembly specifications may vary.

NEW COLUMBUS FUTURA CROSS FORK The new Columbus Futura Cross monocone fork is suitable for thru axle flat mount disc, with internal cable routing and wheel passage up to 650b x 2,1" or 700 x 47c. The special dropouts allow to change the rake from 47 to 52mm to achieve the best tuning of the bike.

KEVLAR SHIELD Zydeco King is made to ride fast on all kind of terrains. The possibility to use MTB style tires can rise small debris form the terrain that can impact the lower front part of the frame. For this reason a shield of Kevlar has been laid to protect the carbon structure from any damage.

DOUBLE RESPONSE SYSTEM The special design of the down tube which continues below the BB area increases the stiffness of the lower part of the frame for an improved efficiency of the pedaling, while the continuous design of the rear stays into the top tube raises the comfort and allows to ride for hours with the best feel.

FRAME SPECS

Sizes	S (48) - M (51) - L (53) - XL (55)
