FRAME KIT / COMPLETE BIKE

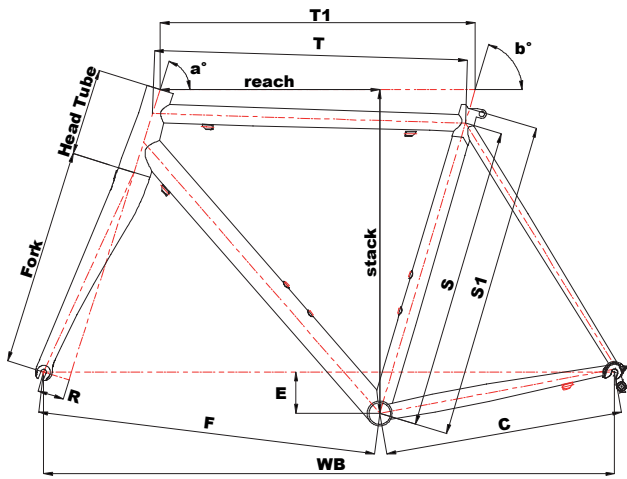

Steel is back with this competition frame made with legendary Columbus Spirit triple-buttet tubes. Entirely Made in Italy.

A classic look for this machine with contemporary details, from the head tube to the monocoque carbon fork and molded chainstays to contrast transmission force. The Tig welding technique increases the frame stiffness and allows for custom geometries.

INTEGRATED SEAT CLAMP The lug with the integrated Nemo seat clamp permits the best connection between the seat stays and the horizontal tube offering an ideal weld surface and avoiding any stress concentration.

TAPERED HEAD TUBE & COLUMBUS FUTURA FORK The 1.5" tapered head tube with the Columbus Futura Caliper monocoque fork increases the reactivity of the frame and the handling of the bike.

WINGED DROPOUTS The beautiful 'C' Winged logo has been casted into the Nemo stainless steel dropouts to create a unique and elegant effect that increases the originality of this Italian Made frame. The dropout design is provided with a curved surface that allows an optimum tig welding of the rear stays and the possibility to adapt to all frame sizes.
